SUMMIT**

PROSPECTUS

3.0

Airflow Summit 2025

Welcome to Airflow Summit 2025, the largest global gathering of Apache Airflow users, contributors, and data orchestration professionals. This year's summit is extra special as we proudly unveil Apache Airflow 3.0—the most significant release in the history of the platform!

Airflow Summit 2025 will bring together data engineers, architects, open-source contributors, and business leaders to explore the revolutionary features of Airflow 3.0, discuss real-world applications, and chart the future of data workflows.

Join us as we celebrate the evolution of Apache Airflow and explore how this release will redefine data orchestration.

2025 Specifics

Structure and Content

The program will include an in-depth presentation on the transformative features of Airflow 3.0

- Multi-day event distributed over 3 days through keynotes, talks, and workshops.
- The program will include:
 - Airflow 3.0 new features - using the new features for experienced users
 - Airflow Intro talks - gentle introduction for new Airflow users
 - Use Cases - using Airflow for various sizes of businesses
 - Roadmap - what new things are coming to Airflow and why
 - Airflow as a platform - building on top of Airflow to make it more powerful
 - Workshops - hands-on content relevant to Airflow
 - Community talks
- Streaming of keynotes and sponsored sessions.
- Networking activities: Opening reception, lunch, exhibit floor, closing session.

Reach strategy

A multi-channel approach will let us ensure maximum visibility and engagement with the target audience.

- Community Engagement: Leverage the Apache Airflow open-source community in events and channels.
- Targeted Marketing: Use personalized email campaigns, social media ads, and partnerships with industry influencers.
- Thought Leadership: Highlight keynotes, workshops, and the Airflow 3.0 launch to attract interest.
- Content Campaigns: Share blog posts, videos, and success stories featuring Airflow 3.0.
- Webinars & Pre-Events: Host virtual sessions to introduce the summit's agenda and provide sneak peeks.

About the venue

The Hyatt Regency Seattle, situated in the heart of the Emerald City, Seattle 808 Howell Street, is the largest hotel in the Pacific Northwest.

This hotel provides the biggest space for conferences in the city, including rooms with a view to cityscapes of downtown including Washington's Lake Union or Elliott Bay.

It is within walking distance of several iconic attractions such as the Space Needle, Pike Place Market, and Lake Union Park, allowing attendees to explore the city during their visit.

Seattle is an exceptional choice for hosting Airflow Summit 2025 due to its position as a thriving hub for technology and innovation. As home to major tech giants, the city fosters a vibrant ecosystem of data-driven solutions and forward-thinking companies.

Sponsorship Opportunities

Reasons to sponsor

- **Spotlight Your Brand During the Airflow 3.0 Launch**

Position your organization as an industry leader at the forefront of this major open-source milestone. Gain unmatched visibility in front of decision-makers and influential engineers.

- **Build Lasting Connections with a Targeted Audience**

Meet professionals actively searching for tools and solutions to power their workflows. Showcase your offerings to an engaged and tech-savvy audience.

- **Lead the Conversation**

Establish your thought leadership by presenting cutting-edge solutions, hosting workshops, or sharing success stories during sessions.

About Apache Airflow®

Apache Airflow is an open-source platform that has become the gold standard for orchestrating complex data workflows. With its vibrant community and versatile architecture, Airflow enables organizations to automate, scale, and optimize their data pipelines. The launch of Airflow 3.0 cements its role as the foundation of modern data engineering.

Apache Airflow®, Apache, Airflow, the Airflow logo, and the Apache feather logo are either registered trademarks or trademarks of the Apache Software Foundation in the United States and/or other countries, and are used with permission. The Apache Software Foundation has no affiliation with and does not endorse or review the materials provided at this event, which is managed by Software Guru.

Airflow® Summit is produced by:

SG Software Guru, an agency and media for engaging with technical audience.

- We get developers. We ourselves are developers and understand their needs and pains, we always reach from a common ground.
- We are experienced. We have more than 20 years in business during which we have performed all kinds of engagements for developers.
- We are connected. Through our media business unit we reach more than 1k software professionals every month. We engage live with more than 20k developers every year through our different events.
